

Benefit Alliance Plan - Preferred Product Formulary

By Therapeutic Class

Restat administers the prescription benefit plan included in the Tier 3 & Tier 4 Group Limited Accident & Sickness Plans underwritten by ACE American Insurance Co. The goal is to provide the highest quality pharmaceutical care, at lower costs. **The most effective way to control costs are through the use of generic drugs and a drug formulary.**

When a generic is not available, there may be more than one brand name drug that may be appropriate for you. The brand name medications listed are considered "Preferred" and were selected based on their ability to meet patient needs at a lower cost. If a generic medication is not available, ask your physician to prescribe a preferred brand.

Always ask for a Generic when available to minimize your out of pocket cost.

- Generic medications are listed in all lowercase letters; brand medications are listed in all uppercase letters.
- All Generic drugs qualify for the \$10.00 co-pay level.
- Generic formulary oral contraceptives qualify for the \$15.00 co-pay level
- Brands on the list (Preferred) qualify for the \$50 co-pay level (or 50% of the discounted price, whichever is greater).
- Brands not on the list (Non-Preferred) are available at a discounted price.
- **This list is not complete** and is not a guarantee of coverage. The list is subject to change.
- You may call customer service at 1-888-422-8482 if you have questions about a particular medication.

ACNE (TOPICAL)

ATRALIN GEL
DUAC CS

EPIDUO GEL
RETIN-A MICRO
TAZORAC
